DPL Hair Removal Skin Care System

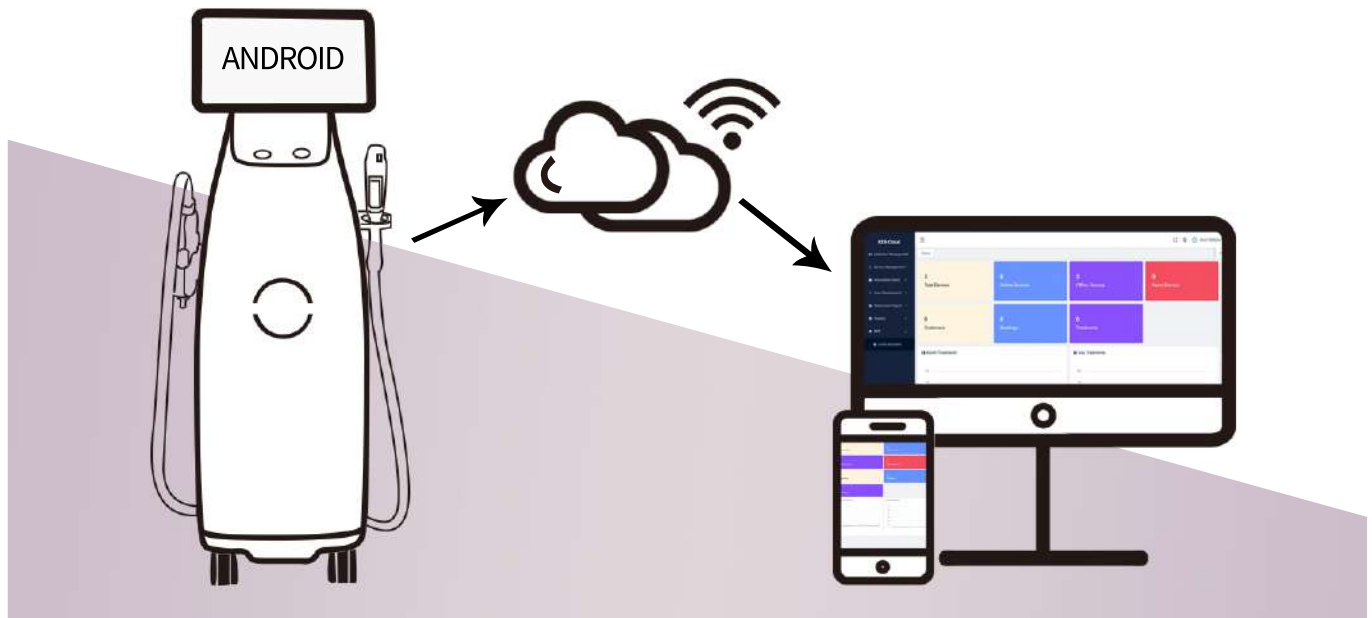

ALL YOU NEED, ALL IN ONE

TECHNIQUE CREATES BEAUTY

ALL YOU NEED, ALL IN ONE

ANDROID SMART Clinics. Manage Your Clinics. Maximize Your Potential.

Platforms and Handpieces | Lets you view the number of pulses, time operated, areas treated, number of platforms and Handpieces operated by each practitioner at any given time. This data is crucial for ongoing modifications of your Clinics' s equipment and for collecting operational statistics (per platforms, Handpiece and Clinics), tracking practitioner performance and improving human resource management.

Treatment Management | Follow up on individual patient care, including areas treated, protocols, and date of visit. Monitor patient cases and needs, and contact them when their next treatment is coming up. Improve customer support and experiences, enhance Clinical results and reinforce customer engagement and relationships. Smart Clinics presents Clinical protocols on the screen, making hard-copy protocols a thing of the past.

Maintenance and Service | Smart Clinics lets you open up a service call at any time through the application, sending you a troubleshoot guide so that problems can be solved when they arise. It offers the ability to track treatments and view statistics for each machine to prevent overuse and underuse, follow up on errors and receive ongoing maintenance alerts (water/filters). With Smart Clinics, you can prevent downtime, manage your resources more efficiently and boost productivity.

Marketing and Promotion | Smart Clinics provide Marketing and Promotion function for distributors and chain spa owners, you can push the newest information to every of the devices, and brings more chance to cooperation with your clients.

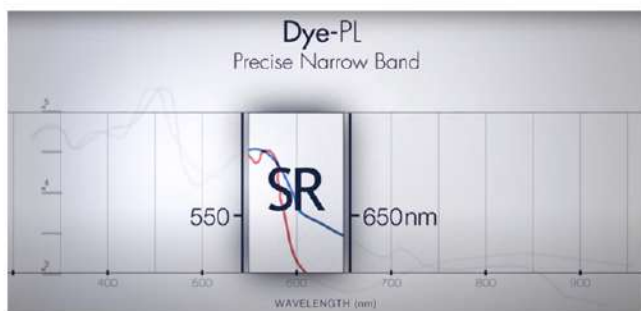

ALL YOU NEED, ALL IN ONE

Technique Creates Beauty

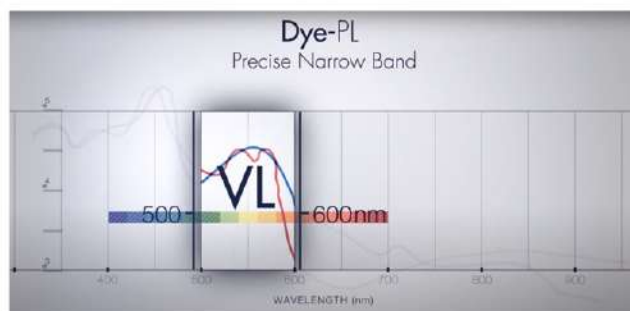

What is DPL Technology?

DPL based on the new Dye Pulsed Light technology, it is as effective as laser treatments, combined with the safety, versatility and low-cost of pulsed light. DPL is a high-end, professional-grade skin rejuvenation technology. It is one of the most efficient methods used to achieve uniform skin tone and texture, with fewer treatments and faster results. The unique combination of exclusive DPL and AFT technologies targets all layers of hyperpigmentation, including dark skin, as well as all types of pigmented and vascular lesions.

DPL 550~650nm (Skin Care Standard)

DPL 500~600nm (Vascular Optional)

A Full Spectrum of Solutions

DPL System provides safe and effective treatments for a wide range of indications, including:

- ◆ Skin Rejuvenation
- ◆ Pigmented Lesions

Wavelength: 430/530/640-1200nm

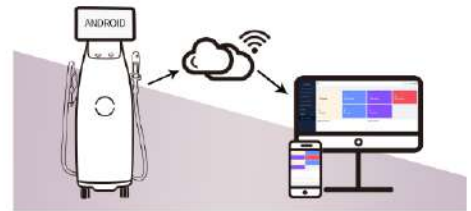

Function: Hair Removal, Photo Rejuvenation, Pigmentation, Correction, Vascular Therapy, Acne Treatment, Wrinkle Removal

Advantages

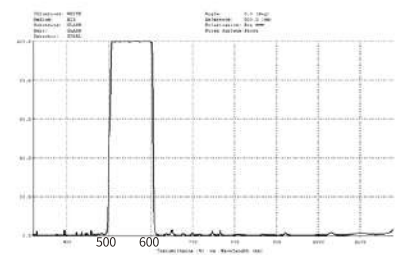

◆ 15.6' Android Smart Clinics

15.6' Android Screen Smart Clinics System, provide Remote Devices Management, Errors Alarm, Clinical Training, Customers Info Storage, Appointment Reminder.

◆ Newest DPL Technology

75% Pain Reduced 75% Redness Reduced compared with IPL.

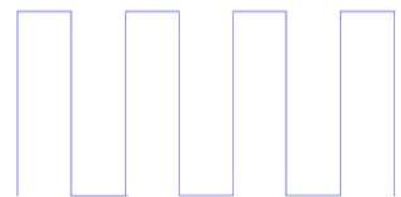

◆ Camera DPL Handle

10 Times High Resolution Skin CAMERA, Skin and Hair Analysis for Accurate Clinicsal Parameters, Clinicsal results under controlling.

◆ 10 Shoots/Sec Fast Results

10Shoots/sec In-motion DPL Technology, 75% treatment time reduced, clients bookings increase 100% everyday.

◆ 2,000,000 Shots Germany Lamp

2,000,000 Shots Germany Heraeus Xenon Lamp, Stable Energy, 2 times Lifespan than others.

Technique Specification

Operating System	15.6' Android Screen
Model No.	MED-230 LUX
IPL Peak Power	3500W
Handpiece Number	Total 2; (1 DPL Handpiece, 1 Laser Handpiece)
Wavelength	DPL 550~650nm; Laser 1064+532+1320nm standard; DPL 500~600nm/308~380nm/SHR 650~950nm optional IPL 12*33 (430/530/640nm) Optional
Energy Density (Fluence)	1-26J/cm ² (DPL), 1-1500mJ(Laser)
Spot Size	15×50mm ² (DPL), 2~8mm(Laser)
Pulse Duration	1-15ms
Pulse	Single
Pulse Repetition Rate	1-10Hz
Timer	1-30ms
Cooling	Air + Water + Sapphire contact cooling (-4°C~ +4°C)
Stand-by Working	Continuously for 12 hours
Net Weight	50KG
Dimensions (W x L x H)	390×435×1310mm
