Synergy M360

Infrared RF Vacuum Slimming Machine

Synergy M360

Vacuum + Roller + RF + LED + IR

Handpiece 1 , Handpiece 2 , Handpiece 3 , Handpiece 4

■ Application

Handpiece 1

1. Versatile 5 technologies in 1: High Efficiency
2. Handle self-owned operation screen: Convenient
3. Ergonomic design: Easy to handle

Mainly for large area treatment.

Handpiece 2

1. Convenient Operation with handle button
2. 4 different rolling directions with multi-dimensional effects

Mainly for small area treatment. For slimming, body sculpting, cellulite removal etc.

Handpiece 3

1. High precision processed treatment head
2. Non-invasive delicate treatment for Face Carving

Face lifting, skin rejuvenation, wrinkle removal, anti-aging etc.

Handpiece 4

1. Uniform RF energy output brings accurate treatment results
2. Nonperishable Comfortable Medical Materials Head

Edema of eye removal, microgroove removal for eyes, mouth and nose area, etc

Technique Creates Beauty

■ Principle

Synergy M360 is a perfect combination of five technologies: vacuum, mechanical massage roller, infrared light, bipolar RF and LED light. It gives solution to skin laxity, wrinkle, fat accumulation and cellulite through non-invasive treatment, and then achieve the effect of face lifting and body sculpturing.

Infrared lights the tissue up to 5 mm depth
RF heats tissue from 5 to 35 mm depth

■ Proven Clinical Results

Technique Creates Beauty

■ Technique Specification

Model NO.	MED-360
Radio Frequency Power	Up to 50W
Focused Technology	Vacuum + RF + Roller + LED + IR
Delivery Type	Pulse; CW
RF Frequency	10MHz
Pump Suction Rate	25cub.m/h
Infrared Lamp	Up to 20W
Light Spectrum	640nm (infrared); 690nm (LED) 1×Vacuum+RF (56x80.5mm)
Handpiece	1×Vacuum+RF (34.5x48mm) 1×Vacuum+RF (18x25mm) 1×Vacuum+RF (8.5x15mm)
Cooling	Self-contained
Display	10.4" True Color LCD Touch Screen
Electrical Requirements	220V±10% 50/60Hz, 110V±10% 50/60Hz
Net Weight	51 KG
Dimensions (WxLxH)	56*47*110cm
