## What is Build Muscle Technology?

**Build Muscle** is based on high-intensity focused electromagnetic energy. A single Build Muscle session feels like thousands of powerful muscle contractions which are extremely important in improving the tone and strength of your muscles.

These powerful induced muscle contractions not achievable through voluntary contractions. The muscle tissue is forced to adapt to such extreme condition. It responds with a deep remodeling of its inner structure that results in muscle building and sculpting your body.

## A Full Solution for Muscle & Fat

Build Muscle System provides safe and effective muscle building and fat removal treatments for a wide area of body, including:
